

# BRAVO COMPANY, LOGISTICS TASK FORCE-325 PROVIDES SECURITY

## Kandahar, Afghanistan (Observation Post 1)-

Bravo Company, Logistics Task Force -325 (LTF-325) has been charged with the important responsibility of providing security at Observation Post number 1 on Kandahar Airfield (KAF). They are responsible for the safety of all personnel on base by ensuring that no dangerous personnel or equipment enter through this area.

B/LTF-325 is the maintenance unit responsible for fixing all equipment used by military forces on KAF. Executing security missions such as this is a task they have been thoroughly trained on back at home station.

In addition to providing security OP1, Bravo Company, LTF-325 has conducted numerous recovery missions outside of KAF. The inherent danger these Soldiers are exposed to by exiting the base is mitigated by the extensive training they conducted at Schofield Barracks, Hawaii. The convoy lane training they received, to include two live fire exercises has been critical to the success of their missions. B/LTF-325 continues to train here at Kandahar, Afghanistan. There is a convoy live fire exercise already scheduled for early August in order to keep the Soldiers' skills finely tuned. B/LTF-325 remains ready to perform their wartime mission.
